

## ARDDANGOSFA Porthladdoedd Coll

17 Ebrill – 30 Mehefin

Mae gan Gymru arfordir hir – bron yn 870 milltir o hyd. Arweiniodd ffermio a diwydiant at fasnachu, ac er bod llawer o nwyddau'n croesi Clawdd Offa, roedd y môr a'r afonydd yn bwysig dros ben. Y canlyniad oedd creu porthladdoedd, ambell un mewn lle go annisgwyl. Mae'r arddangosfa hon yn tynnu sylw at rai o'r porthladdoedd coll hyn. Fe'i paratowyd ar gyfer dathlu Blwyddyn y Môr 2016 ac mae ar ei howting gyntaf o Amgueddfa'r Glannau, Abertawe i Amgueddfa Forwrol Llŷn.

## LOST PORTS EXHIBITION

17 April – 30 June

Wales has a long, indented coastline, almost 870 miles in length. Farming and industry gave rise to trade, and whilst some of that trade flowed eastwards over Offa's Dyke, much of it also went by sea and river, in many cases from locations where it is difficult to imagine a port today. This exhibition recalls some of those lost ports. It was first produced by the Swansea Waterfront Museum for 2016 Year of the Sea and this is its first showing elsewhere.
